CITY OF SCRANTON'S WATER TOWER

- The water tower system cost $4,026 and was fabricated in Des Moines, Iowa
- The tank has a capacity of 48,000 gallons of water
- Scranton, Iowa owes its existence to the Cedar Rapids and Missouri Railroad with a line completed through Greene County in 1866.The town was named after Mr. Scranton, the owner of a steel mill in Scranton, PA that furnished many of the railroad ties for the CNW Railroad.

* The town of Scranton is found in Greene County just 11 miles to the west of Jefferson on Highway 30
